INDOOR SURFACE

IMPACT

REBOUND ACE IMPACT

The Multi-Purpose Indoor Sports Surface

MULTI-USE, MULTI-SPORT—THE BALL'S IN YOUR COURT

The need for a long wearing cushioned indoor surface lead to the development of Rebound Ace Impact. Designed for a wide variety of indoor sports, Rebound Ace Impact is tough and durable, ultimately suitable for multi-sports.

It provides excellent playing characteristics for basketball, netball, volleyball, futsal, gymnastics and badminton. In fact almost any sport that is played indoors. Rebound Ace Impact also provides the flexibility and toughness essential for multi-use centres such as school and college halls, assembly halls and community centres.

FEATURE

multi-purpose indoor surface

water based technology

multi-layered composition

ADVANTAGE

suitable for a wide variety of sports or uses

free of toxic fumes

player comfort and excellent sound attenuation

self levelling wear layer

durability and toughness

range of colours

to suit indoor sport or interior design

eco friendly

consistent ball bounce

promotes player development

cushioned system

reduced strain on muscles and joints

sure footed grip

low injury risk

smooth, non abrasive surface

low maintenance and easy to clean & recoat

Rebound Ace Impact is the preferred therapeutically cushioned option to hard floors and timber.

Versatility for all ball sports through to rhythmic gymnastics and dance, yet tough enough for assembly halls, community facilities and performing arts centres Rebound Ace Impact provides flexibility with the added bonus of an easily maintained smooth matt finish.

6mm or 9mm

Colour coats and line marking

High impact layer

Mat sealer

Rubber shock pad

Mat adhesive

Timber, concrete or asphalt base

A Rebound Ace Impact surface removes the harshness of a hardcourt or timber surface and actually enhances performance. The reduction in impact on leg muscles and joints greatly improves the comfort levels of players as well as lowering fatigue. This in turn allows players to perform better, maximizing their true potential.

Rebound Ace Impact is a resilient, multi-layered product consisting of an elastic rubber cushioned base, self levelling polyurethane wear layer as well as a polyurethane top coat with a non reflective matt finish. Rebound Ace Impact is manufactured under strict quality procedures conforming to the highest world quality assurance standard ISO 9001 rating.
